

The Orange County Women's Chorus creates and performs outstanding choral literature, engages and enriches our audiences, and celebrates women in music.

The Orange County Women's Chorus believes in the transformative power of music, and we believe our communities are enriched in countless ways by the choral arts. We invite you to join us to make a difference in our community.

We are a 40-voice auditioned community ensemble, coming from 19 communities in Orange County and from all walks of life. Our wide-ranging repertoire has included medieval chants, multicultural folk songs, classical masterworks, protest songs, gospel tunes, and more. We're especially proud of our commitment to new music and up-and-coming musicians; we regularly commission new works for women's voices, and our conducting internship program, designed to encourage young women entering the field of choral conducting, has been a model for other choruses around the nation. We are committed to offering outstanding choral music experiences to our audiences in accessible and affordable ways.

Our ticket prices cover just 25% of the cost of our productions. Your tax-deductible donation in the form of a gift certificate, service or merchandise will help us to, among other things:

- provide financial assistance to singers who would not otherwise be able to participate;
- secure rehearsal space and performance venues that are easily accessible to the community;
- keep our ticket prices affordable to reach as broad an audience as possible;
- provide internship opportunities to promising young women choral conductors;
- and add new music to the treble repertoire through commissioning projects.

Cash donations are also welcome and checks should be made payable to the OCWC.

As successful members of our community, we realize that you receive many requests for donations and we appreciate your consideration of our request. We will acknowledge your donation in the concert programs and on our website. Please deliver all donations and the enclosed information sheet to the
